APDR Feedback

Is the information shared clear and useful?

We would welcome feedback on the pupils' outcomes (targets) to work towards

We will share some slightly different information each term

APDR Feedback

Is there any more information that may be useful to share as part of this process?

Your feedback from last session included:

- EHCPs - to understand how we break down the information.
- This can be discussed individually at an EHCP annual review if requested
- Bring the group together when there are changes coming up e.g. policy,
- We review our policies towards the end of the summer term and share these with school leadership in September/October each year.

Your feedback from last session included:

- Parent forum - support from other parents,
- We cannot, as far as I am aware, set this up ourselves but could be something that is started with parents/carers here.
- Careers support and work experience - looking at options beyond GCSEs,
- I am sharing resources and advice for next steps with year 11 soon. This will be shared with parents/carers of year 10 in the summer term.
 - I can share what this would look like if this would help - feedback welcome.
- Extra curricular groups similar to LS football,
- Unfortunately, we cannot offer any further extracurricular activities.

Your feedback from last session included:

- How to encourage SEND children to study independently,
- Drip fed, small and often approach. Similar approaches that other pupils are advised to use, these take
- SEND learning resources.

Parent Q & A

Please note that this should not be an opportunity to discuss something personal to a pupil - a separate meeting would be more appropriate for this.
